Finance

Blockchains

EDUCATION

Bachelor of Technology in Computer Science and Technology

Maharaja Surajmal Institute of Technology

12/2020 - Present

CGPA : 9.80

Class XII

New Era Public School

03/2019 - 03/2020

Aggregate : 90%

Class X

New Era Public School

03/2017 - 03/2018

Aggregate : 90%

PERSONAL PROJECTS

Realtime Chat Application (NODEJS/SocketIO)

- An online communication that provides a real-time or live transmission of text messages from sender to receiver
- Used SocketIO which is a JavaScript library. It enables realtime, bi-directional communication between web clients and servers

DANCE ACADEMY (HTML/CSS/JS/NODEJS/MONGODB)

- Implemented my knowledge of FullStack development
- Used a template engine (Pug)
- Made a contact form that collected user data using MongoDB

Expense Tracker (ReactJS)

- Expense Tracker helps you track your financial activity efficiently. Its simple design makes it lightweight, straightforward and very easy to use.
- Intuitive and easy to use user interface. No redundancy Add new records extremely fast.
- Easily record the transaction to track where your money comes and goes.

Covid Tracker (MapBox)

- Used the MapBox API to bring the world map on to the user's screen
- Derived the data from a JSON file tracking back to March/2020

Portfolio Website (HTML/CSS/Bootstrap)

- Used Bootstrap classes to bring responsiveness to the website
- Made custom CSS buttons

Simon Game (HTML/CSS/JavaScript)

- Made a memory game using Javascript/JQuery

ACHIEVEMENTS

5 Stars on Hackerrank

3 Stars on Codechef

Got a rating of 1632 after coming in the top 10 percentile
